# அம்மா

என் வாழ்வில் கடந்து செல்ல  
முடியாத மூன்று எழுத்து அம்மா!  
கஷ்டத்தில் என்னை கலங்க விடாத  
உறவும் அம்மா!

பிறக்கும் முன் முதலில் கேட்ட இசை  
என் அம்மாவின் இதயத்துடிப்பு!

அவள் உதிரத்தில் உதிர்த்த உயிர்  
நான்!

P. Jai sree

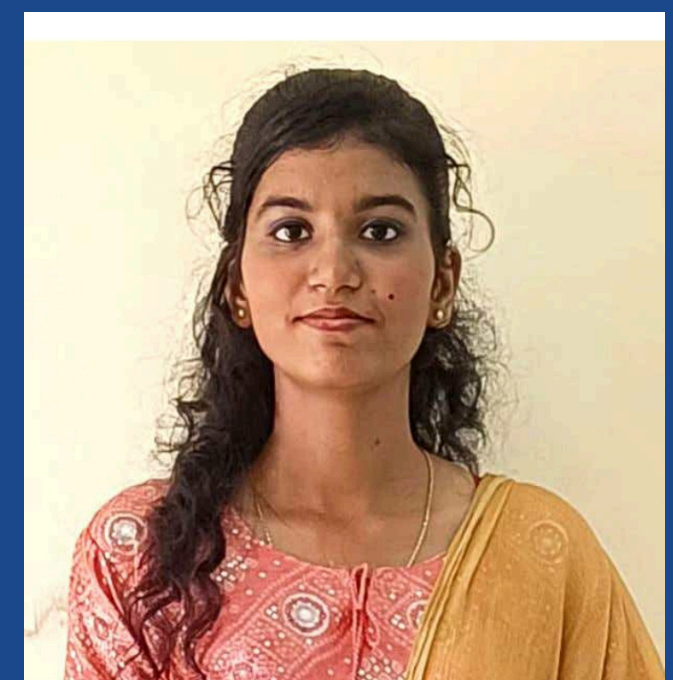

I B.Com

# Premise of Fashion Technology

Fashion Technology is an art of making our garments more beautiful by using creative ideas. It is the application of technology including the use of software materials and manufacturing techniques to create innovative products. Technology in fashion enables fabrics, patterns to be virtually created at first. That process makes much more sustainable.

Fashion Technologist is a professional who applies technical expertise to the development, production and quality control of textiles and garment.

Artificial Intelligence can significantly enhance marketing and customer service for fashion brands by providing personalized experiences, automating routine tasks, and analyzing vast amounts of data to derive actionable insights.

I. B.Sc.,

Fashion Technology.

# How to be "A Strongest Women?"

- "Empowered women empower themselves everyday".
- "Her Independence is her greatest Strength".
- "Unapologetically me, Unconditionally free".
- "She rises by lifting herself".
- "She is self-made, self-reliant and unstoppable".
- "Chin up girls, we born to reign the world".
- "Her Future is hers to create".
- "She stands alone, yet stands tall".

P. Esther

# Artist Corner

பிறர் ரசிக்க  
வாழ்வதை விட  
உன் மனம்  
உன்னை ரசிக்க  
வாழ்வது தான்  
மகிழ்ச்சியை  
தரும்..!
