CAN PLANTS HEAL?

Yes plants have been used for medicine beyond doubt. Historic time and the effectiveness of drugs such as Aspirin, morphine and quinine came originally from plants. In some countries such as China, herbal medicines are still among the most widely used of all medicine though not all are equally effective.

WHY MIGHT FOX GLOVE STOP YOUR HEART:

Fox glove in large doses is highly poisonous but it also yields that the drug is used in small doses to treat heart problems.

CAN PLANTS CURE CANCER?

No drug yet know can cure cancer but an extract of the rosy periwinkle, vincristine is very effective against leukemia, the cancer.
