Introduction to Income Tax

Income Tax is a Direct Tax that is levied on the net income earned by an individual, company or any other person. The amount that is calculated as income tax is calculated as a percentage on the earnings of the said person or entity. Each person is required to declare their earnings to the government by way of an annual income tax return and pay their taxes due as per the applicable laws. Non-payment of tax and non-filing of tax returns is punishable by the law.

History of Income Tax

In 1860, income tax was introduced in India for the first time by Sir James Wilson, the pre-independence finance minister of India. He enforced the Income Tax Act, 1860 to cover up for the losses sustained by the government due to the military mutiny of 1857. From time to time, the Income Tax Act was replaced with different licence taxes. In 1886, a separate Income Tax Act was passed, which was further amended by the Income Tax Act of 1918 and 1922. The Income Tax Act, 1922, became highly complicated due to several changes. Hence, the Income Tax Act, 1961, was introduced on April 1, 1962.

Presently, the Income Tax Act, 1961 is applicable in India. Over the years, the Income Tax Act has undergone several changes, even those of far-reaching nature, as proposed by the Union Budget every year. Currently, the Income Tax Act levies income tax under the following five heads:

- Income from Salary
- Income from House Property
- Income from Profits and Gains of Profession
- Income from Capital Gains
- Income from Other Sources

The Income Tax Act, 1961 was introduced for the sole purpose of governing and administering income tax in the country. However, in 1962, specific Income Tax Rules were laid down to ensure proper enforcement and application of the Income Tax Act, 1961. The Income Tax Rules cannot overrule the provisions of the Income Tax Act and must be read in combination with the same.

Income Tax Act 1961

The Income Tax Act 1961 is an Indian parliament-passed law that governs the levy, collection, and administration of direct taxes in India. It applies to all persons earning income in India, regardless of whether they are citizens or Non-Residents (NRI). Under this law, taxpayers are obligated to pay direct taxes at prescribed rates.

ACADEMIC YEAR 2025-2026, SEMESTER – V STUDY MATERIAL FOR B.COM INCOME TAX LAW AND PRACTICE - I

This act gives the set of rules and regulations upon which the Income Tax Department levies, administers, collects and recovers taxes. It contains 298 sections, 23 chapters, and several important provisions that cover all the aspects of taxation in India.

Main Objectives of Income Tax Act 1961

The main objectives of the Income Tax Act 1961 are as follows:

Price Stability

The IT Act maintains price stability in the economy by laying out regulations for direct taxes. It serves as a measure to control private spending, thereby keeping a check on the inflation of commodity prices.

Full Employment

This Act reduces the income tax rates in order to promote higher demand for goods and services. This, in turn, leads to increased employment opportunities, thus fulfilling the objective of full employment.

Non-Revenue Objective

A higher tax rate is applicable for wealthy people compared to the poor. In this way, the Income Tax Act encourages a progressive taxation system that addresses the inequality in wealth among its citizens, carrying out its non-revenue objective.

Cyclical Fluctuations Control

When there is an economic boom, the income tax rates are increased, while in times of recession, it is reduced. In this way, the Act maintains control over cyclical fluctuations in the value of money.

Reducing Balance of Payment Issues

The Income Tax Act imposes customs duties on the import of certain goods. This helps encourage the domestic production of goods, thereby reducing the balance of payment difficulties for the authorities.

Features of Income Tax Act 1961

Some of the salient features of the Income Tax Act 1961 are as follows:

- Income tax is a form of direct tax that needs to be borne by the taxpayer. It cannot be transferred to another individual.
- The Central Government of India controls this form of taxation.
- It is applicable to the taxpayer's income which was earned in the previous year.
- Tax calculation is applicable based on the assessee's income tax slab.

INCOME TAX LAW AND PRACTICE - I

- The government levies a progressive income tax rate so that rich and economically powerful individuals have to pay taxes at higher rates.
- Deductions apply to a maximum limit per financial year in certain cases.

Meaning of Income

In case of individuals employed, salary or wages earned is considered to be the primary source of income. In businesses, the revenue received from the core business functions after paying all expenses or applicable taxes is the business income. To sum up, income is nothing but ones earning received during a period. Generally, all incomes are subjected to taxes in India.

Types of income

Income earned during a year by an individual or a business is categorised into five heads of income and taxed accordingly. Five heads of income are as follows:

Income from salary: This includes basic salary, allowances, perquisites and profits in lieu of salary earned by an individual. Pension income received by a retired individual is also included here.

Income from business/profession: Any income earned or received by a business from the sale of goods or services is called business or professional income. This income is subject to tax after adjusting the expenses and allowable deductions.

Income from house property: Any income received from renting a house is included under house property income.

Income from capital gains: Profit or gains from the sale of any capital asset such as land or building is included here.

Income from other sources: All those income not covered under the aforementioned heads of income will be included here.

Important definitions under the Income Tax Act

Previous Year (PY) - The previous year, also known as PY, refers to the financial year immediately preceding the assessment year. In other words, the previous year is equivalent to the financial year.

Assessment Year (AY) - The assessment year, or AY, is the period of 12 months starting on April 1st and ending on March 31st of the following year. It follows the financial year. For example, the assessment year for the financial year 2021-2022 would be 2022-2023. During the assessment year, individuals and businesses are required to file their income tax returns for the corresponding financial year.

Assessment - Assessment is the process of reviewing and evaluating the returns filed by individuals or businesses with the Income Tax Department.

Assessee - An assessee is a person or entity that is required to pay income tax, or any other sum of money as specified by the Income Tax Act. This includes individuals, Hindu Undivided Families (HUFs), Association of Persons (AOPs), Body of Individuals (BOIs), companies, firms, Limited Liability Partnerships (LLPs), local authorities, and any artificial juridical persons (AJPs) that do not fit into any of the other aforementioned categories.

Self-Assessment Tax - Self-assessment tax is the income tax paid by the assessee after accounting for advance tax and tax deduction at source. It is required to be paid during the assessment year before the individual or business files their income tax returns.

Income Tax Return - An income tax return is a form that individuals and businesses use to report their income to the Income Tax Department for a specific financial year. There are several different forms that can be used, depending on the sources of income, the amount of income earned, and the type of assessee (such as an individual, HUFs, firm, or company). These forms include ITR 1, ITR 2, ITR 3, ITR 4, ITR 5, ITR 6, and ITR 7.

Tax Deduction at Source (TDS) - It refers to the tax that is withheld before payment is made to the recipient (the deductee). Under the provisions of the Income Tax Act, TDS may be applied to salary, interest on bank deposits, commission, consulting fees, professional fees, and rent payments, among others. The deductors, or the party making the payment, is responsible for reporting this deduction in appropriate form which will reflect in Form 26AS and TDS certificate shall also be available by deductors. The assessee, or the individual or business responsible for paying the tax, can use this certificate when filing their income tax return to claim credit for the tax paid.

Net Taxable Income - Net taxable income is the income that is subject to income tax, calculated after considering deductions that are permitted under the Income Tax Act (such as those outlined in various Section 80s). Tax is paid on this amount.

Gross Total Income - Gross Total Income (GTI) is the starting point for calculating and filing income tax returns. It includes all sources of income, such as salary, income from property, profits from a business or profession, capital gains, and income from other sources. These amounts are calculated after considering any exemptions or deductions that may be applicable, such as the exemption for Housing Rent Allowance (HRA) and eligible allowances.

Form 16 - Form 16 is a certificate issued by an employer that contains the information necessary to prepare and file an income tax return. Part A of the form includes the employer and employee's full address, their Permanent Account Number (PAN), the Tax Deduction Account Number (TAN) of the employer, the amount of tax deducted and deposited by the employee for the relevant assessment year, and the challan numbers. Part B provides details on salary paid, any other income, exemptions and deductions claimed, and tax deducted.

Types of Assessee

As per the Income Tax Act, they can be classified into different categories as follows:

Assessee-in-default

When individuals fail to meet their statutory responsibilities of paying tax, then they become assessee in default. For example, an employer should deduct tax from the salary of his employees before giving the salary. Moreover, employer has to pay deducted taxes to the government as per the due date. However, If the employer fails to deposit this tax he is an assessee-in-default.

Incomes exempted under Section 10

The Government of India provides some exemptions to reduce the tax burden on the taxpayers. Section 10 of the Income-tax Act, 1961 talks about those exemption provisions and the terms and conditions on which one can avail a tax exemption. These exemptions help the taxpayer to reduce their tax liability.

While calculating the tax liability of an individual, there are certain incomes which is exempt and do not form a part of the total income. Section 10 of the Income-tax Act 1961 includes all those exemptions that a taxpayer can claim while paying income tax.

Residential Status

Meaning and importance of residential status

The taxability of an individual in India depends upon his residential status in India for any particular financial year. The term residential status has been coined under the income tax laws of India and must not be confused with an individual's citizenship of India. An individual may be a citizen of India but may end up being a non-resident for a particular year. Similarly, a foreign citizen may end up being a resident of India for income tax purposes for a particular year.

Also to note that the residential status of different types of persons via an individual, a firm, a company etc is determined differently in this article, we have discussed about how the residential status of an individual taxpayer can be determined for any particular financial year

Determining the residential status of an individual

For the purpose of income tax in India, the income tax laws in India classify taxable persons as:

- A resident
- A resident not ordinarily resident (RNOR)
- A non-resident (NR)

The taxability differs for each of the above categories of taxpayers. Before we get into taxability, let us first understand how a taxpayer becomes a resident, an RNOR or and NR.

Resident

A taxpayer would be qualified as a resident of India if he satisfies any one of the following 2 conditions:

- Stay in India for a year is 182 days or more
- Stay in India for the immediately 4 preceding years is 365 days or more and 60 days or more in the relevant financial year

In the event an individual leaves India for employment during an FY, he will be qualified as a resident of India only if he stays in India for 182 days or more. else the condition (b) above 60 days will not apply to him

Resident Not Ordinarily Resident

If an individual qualifies as a resident, the next step is to determine if he/she is a Resident ordinarily resident (ROR) or an RNOR. He will be a ROR if he meets both the following conditions:

- Has been a resident of India For at least 2 out of 10 years immediately, For the previous years

ACADEMIC YEAR 2025-2026, SEMESTER – V
STUDY MATERIAL FOR B.COM
INCOME TAX LAW AND PRACTICE - I

- Has stayed in India for at least 730 days in 7 immediately after the preceding years

Therefore, if any individual fails to satisfy even one of the above conditions, he would be an RNOR.

Non-resident

An individual satisfying neither of the conditions stated in (a) or (b) above would be an NR for the year.

Taxability Resident:

A resident will be charged to tax in India on his global income i.e. income earned in India as well as the income earned outside India.

NR and RNOR:

Their tax liability in India is restricted to the income they earn in India. They are not in need to pay any tax in India on their foreign income.

Also note that in case of double taxation of income where the same income is getting taxed in India as well as in abroad, one may resort to the Double Taxation Avoidance Agreement (DTAA) that India would have entered into with the other country in order to eliminate the possibility of paying taxes twice.

Residential Status of HUF

Resident: An HUF would be resident in India if its management is made from the members in India, if not will be considered a Non-resident.

Resident and ordinarily resident/ Resident but not ordinarily resident

If Karta (manager) of resident HUF satisfies the below conditions, then HUF will be treated as resident and ordinarily resident, otherwise, it will be resident but not ordinarily resident.

- Should be resident in at least 2 previous years out of the last 10 years.
- Stay in the last 7 years should be 730 days or more.

Note: Only individuals and HUFs can be Resident and not ordinarily residents in India. All other classes of assesses can be either a resident or non-resident.

Residential Status of a Company

A company would be resident in India in the following circumstances :

- If it is an Indian Company
- The place of effective management in the previous year is in India.

ACADEMIC YEAR 2025-2026, SEMESTER – V
STUDY MATERIAL FOR B.COM
INCOME TAX LAW AND PRACTICE - I

Note: Place of effective management means a place where management and commercial decisions that are necessary for the conduct of business or entity are taken.

Residential Status of Firms, LLPs, AOPs, BOIs, Local authorities and artificial juridical persons

In simple words, the residential status will depend on the place from where the management of the above person's management is made, similar to HUF, if it's done by members in India, then it will be resident, else it will be non-resident.

Scope of total income

Section -5 of Income Tax Act, 1961 provides Scope of total Income in case a person who is a resident, not an ordinarily resident in India and person who is a non-resident which includes. Income can be Income from any source which (a) is received or is deemed to be received in India in such year by or on behalf of such person; or (b) accrues or arises or is deemed to accrue or arise to him in India during such year; or (c) accrues or arises to him outside India during such year.

Table explaining Scope of total Income under section 5 of Income Tax Act, 1961

Sr. No	Particulars	Ordinary Resident	Not Ordinary Resident	Non Resident (NR)

Exercise Problems

1. Mr. Rajan left India for the first time on 15th December 2024 and returned back to India on 2nd February 2025. Identify his residential status for the assessment year 2024-25.

Solution:

Mr. Rajan Singh will get the status “Ordinary Resident”, since he satisfies the first basic condition and both the additional conditions

2. Mr. Williams is an Indian citizen who lives, in India since 1984. During the previous year 2018-2024 he went to Arabia for 325 days. Identify the residential status.

Solution:

Mr. Williams will get the status “Non-Resident”, since he not satisfy the basic conditions itself as he had stayed only for 40 days in the previous year 2024-25.

From the following details calculate the total income of Mr. Raja, if he is OR, NOR and NR

- i. dividend from Indian company rs 1,00,000
- ii. dividend from foreign company rs 1,50,000, received in India
- iii. income from business in Kenya but controlled from India rs, 2,00,000
- iv. income accrued in Switzerland rs, 2,50,000, 2/5th received in India
- v. income from business in Indonesia but controlled from Bangladesh rs, 5,00,000

Solution:

Calculation of taxable income of Mr. Raja

Rent free accommodation:

The rent free accommodation provided to employees by their employer is taxable. Since the employees are provided rent free accommodation, the amount of income accruing to them cannot be determined by them. Accordingly, there is prescribed manner for calculating income chargeable to tax as perquisite. The manner of calculating income chargeable to tax as perquisite for rent free accommodation is as follows:

Category of Employees	Income	
	Unfurnished Accommodation	Furnished Accommodation
1) Provided to a Judge of High Court, Supreme Court 2) Provided to an Officer of Parliament	In case of Rent free Official Residence: Nil	In case of Rent Free Official Residence: Nil
Provided to Central/ State Government employees	(a) License fees determined by the Central/ State Government	(a) Same as Unfurnished Accommodation (b) 10% p.a. Of the cost of furniture If such furniture is hired, then hire charges payable.
Provided to any other employee		
1) Where the accommodation is owned by the employer	(i) 15% of salary in cities having population exceeding 25,00,000 (ii) 10% of salary in cities having population between 10,00,000 and 25,00,000 (iii) 7.5% of salary in other areas	(a) Same as Unfurnished Accommodation (b) 10% p.a. Of the cost of furniture If such furniture is hired, then hire charges payable.
2) Where the accommodation is taken on rent by the employer	Lower of the following: (i) Rent Payable Or (ii) 15% of salary	(a) Same as Unfurnished Accommodation (b) 10% p.a. Of the cost of furniture If such furniture is hired, then hire charges payable.

Concession in rent:

Some employers provide the employees with accommodation at rates lower than normal market rates. This reduction in rates is known as concession in rent.

Payment by the employer in respect of an obligation of employee:

In this case, the amount is liable to be paid by the employee and the employer pays the same.

Example:

Self Assessment Tax of the employee is paid by the Employer.

Note: If the employer pays taxes on behalf of employees on non-monetary perquisites provided to them, then such taxes are exempt in the hands of the employee.

Valuation of benefit of provision of domestic servants

If the employee or any member of his household is provided with domestic servants such as sweeper, gardener, watchman or personal assistant then the benefits so received by the employee are taxable as perquisites in the hands of the employee.

Utility such as gas, electricity or water supplied by employer

If the employer pays to the utility provider on behalf of the employee or if the employer himself provides such utilities then the benefits so received by the employee are taxable as perquisites in the hands of the employee.

Free or concessional educational facilities

If the employer provides free or concessional educational facilities from the educational institutions maintained and owned by the employer or if free educational facilities are allowed in any other educational institution then the benefits so received by the employee are taxable as perquisites in the hands of the employee.

However, if the educational institution is maintained and owned by the employer and the employer provides free or concessional education facilities to the employee himself or his children and the benefits so received by the employee does not exceed Rs. 1,000/- per month then such amount shall not be taxable in the hands of the employee as perquisite.

Interest-free or concessional loan

The value of the benefit to the employee as a result of interest-free loan or concessional loan for any purpose provided to the employee or any member of his household is a taxable perquisite.

However, this perquisite will be not being chargeable to tax in any of the following cases:

- If such loan is provided for the purpose of treatment of diseases such as cancer, tuberculosis, etc. However, out of the amount of loan provided, if the employee receives

reimbursement from any medical insurance scheme, then such amount shall not be exempt.

- Amount of loans made to an employee does not exceed Rs. 20,000/-.

Free or concessional food and non-alcoholic beverages

If the employer provides free or concessional food and/ or beverages such as tea, coffee etc., then the benefits so received by the employee are taxable as perquisites in the hands of the employee. However, if the following are provided by the employer then they are not taxable in the hands of employees as perquisites:

- Free food and beverages such as tea, coffee etc. provided by the employer to an employee during working hours at office or business premises less than Rs. 50/- per meal.
- Vouchers provided having value less than Rs. 50/- per meal
- Tea or Snacks provided during working hours
- Free food and beverages such as tea, coffee etc. provided during working hours provided in a remote area or an offshore installation.

Gifts or Vouchers

Gift or vouchers received by employees or by member of his household on ceremonies or occasions are taxable perquisites in the hands of the employees. However, if the value of such gifts in totality does not exceed Rs. 5,000/- then such gifts are not taxable as perquisite in the hands of the employees.

Reimbursement of credit card expenses

If the employer reimburses expenses incurred by the employee or any member of his household using a Credit card then the benefits so received by the employee are taxable as perquisites in the hands of the employee.

However, if such expenses are made by the employee exclusively for official purposes and the employer has documented the expenses incurred using the credit card then such reimbursements are not taxable as perquisite in the hands of the employees.

Club expenditure

If the employer pays or reimburses for the periodic subscription of a club for the employee or any member of his household then the benefits so received by the employee are taxable as perquisites in the hands of the employee.

However, if the following are provided by the employer then they are not taxable in the hands of employees as perquisites:

Gratuity

Gratuity is a payment received by an employee by his employer as a gratitude for the employee's services to the organization. It is over & above normal salary & other retirement benefits received by an employee.

Taxability of Gratuity Pension

Pension means the employer provides to the employee a fixed monthly amount after his retirement in consideration of past services. Pension can also be called as annuity. There are 2 types of pension:

Uncommuted Pension:

The employer provides the employee with monthly pension till the lifetime of the employee starting post retirement.

Example: Manish worked for a company for past 20 years. After retirement the company pays him Rs. 5,000/- per month in appreciation of his past services to the company.

Commuted Pension:

The employee may request his employer to pay him a lump sum amount of money on retirement rather than providing a monthly amount. The employee can even request that out of the monthly pension, a certain part lets say 50% be given to him on retirement as a lump sum amount and receive the balance part monthly post retirement. This is known as commuted pension.

Example: Manish worked for a company for past 20 years. After retirement the company pays him Rs. 5,000/- per month in appreciation of his past services to the company. Now, Manish request the Company that instead of Rs. 5,000/- per month, he requires the entire amount post his retirement itself. This is a case of commuted pension.

Provident Fund

It is a savings scheme wherein a person saves a certain amount of money every year and receives the cumulative amount of money on retirement. There are various types of Provident Funds. They are as follows:

Public Provident Fund (PPF):

It is an account which may be opened from a nationalized bank. Only individual can open such PPF Accounts with annual contributions as low as Rs. 500/-.

Statutory Provident Fund:

This is applicable only to individuals employed with the Government, railways or all recognized educational institutions. The Government and the employee contribute a certain portion of the employee's salary to this fund monthly.

Recognized Provident Fund:

If the Provident Fund is approved by the Commissioner of Income-tax, it is known as Recognized Provident Fund. In recognized provident fund the employer and the employee contribute a certain portion of the salary of the employee to the fund.

Unrecognized Provident Fund:

A fund, which is not recognized by Income Tax Authorities, in which the employer and the employee contribute a certain portion of the salary of the employee, is an Unrecognized Provident Fund.

Taxability of Provident Fund

Public Provident Fund:

The amount of Contribution made to PPF in a Financial Year is allowed as Deduction U/s 80C subject to specified conditions. The amount of interest accrued is exempt from tax. If the amounts are withdrawn from PPF in specified manner then such withdrawals are also exempt from tax.

Statutory Provident Fund:

The amount of Contribution made by the Government is exempt from tax. Employee's contribution to Statutory Provident Fund is allowed as Deduction U/s 80C subject to specified conditions. The amount of interest accrued is exempt from tax. The amount received on retirement out of such fund is exempt from tax.

Recognized Provident Fund:

It is a fund, which is recognized by the commissioner of income tax. This type of fund is maintained by business houses, industrial undertakings and banks. Under this fund both employee and employer will contribute. Employee's contribution qualifies for deduction u/s 80C. Employer's contribution over 12% of mentioned salary is taxable. Interest is exempted up to 9.5%

Unrecognized Provident Fund:

The amount of contribution made by the employer is not taxable in the hands of the employee during the years when such amounts are being contributed. Employee's contribution to Unrecognized Provident Fund is not allowed as deduction. The amount of interest accrued is not taxable in the year of accrual. The amount received on retirement out of such fund is required to be bifurcated in 4 categories in order to understand its taxability.

Income from House Property

Basis of Charge

Annual value of any property is assessable under this head it,

- Assessee is the owner of the property.
- Property is building and attached land.
- Property should not be used by the owner for his business or profession.

Incomes - Exempted from 'House Property Income'

Under section 10 of the Income-tax Act 1961 following incomes from house property are exempted from tax. These incomes are not to be included in the total income of assessee. Hence no tax is payable on such incomes. These incomes are:

Agricultural House Property [Section 2(1)(c)].

Income from such house property which is situated on or in the immediate vicinity of agricultural land which is used for agricultural purposes by cultivator is exempted from tax.

Income from Property held under Trust Wholly for Charitable or Religious Purposes [Section 11(1)(a)]:

Income derived from property held under trust, wholly for charitable and religious purposes, shall be exempt. To the extent such income is applied in India for such purposes; and where any such income is accumulated or set apart for application to such purposes in India, to the extent to which the income so accumulated or set apart is not in excess of 15% of the income from such property.

Income from Property held under trust which is applied in part only for Charitable or Religious purposes [Section 11(1)(b)]:

Income derived from property held under trust in part only for such purpose, shall be exempt: To the extent such income is applied in India for such purposes, provided, the trust in question is created before the commencement of Income-tax Act, 1961 i.e. before 1.4.1962; and where any such income is finally set apart for application to such purposes in India, to the extent to which the income so accumulated or set apart is not in excess of 15% of the income from such property.

Income from Property held under trust which is applied for Charitable Purposes outside India [Section 11(1)(c)]:

Income derived from property held under trust, created on or after 1.4.1952 for charitable purpose which tends to promote international welfare in which India is interested, shall be

exempt to the extent to which such income is applied to such purpose outside India. Religious trusts are not covered here.

Income derived from property held under a trust for charitable or religious purposes, created before 1.4.1952, shall be exempt to the extent to which such income is applied to such purposes outside India.

In the above two cases, it is necessary that the Board, by general or special order, has directed in either case that it shall not be included in the total income of the person in receipt of such income.

Self-Occupied but Vacant House [Section 23(3)]

In case an assessee keeps one of his own houses reserved for self-occupation but is living in a rented house elsewhere due to his employment or profession the income from such house is taken to be NIL.

The annual value of self-occupied house shall not be NIL:

If such house or part of the house is actually let during the whole or any part of the previous year; or Any other benefit there from is derived by the owner from such house.

In the above cases, the annual value shall be determined as per provisions applicable for let out properties i.e. under clause (a), (b) or (c) of section 23(1).

House used for Own Business or Profession.

There is no income chargeable to tax under this head from such house property. Property held by Registered Trade Union [Section 10(24)].

Income from Business or Profession

Introduction

Provision regarding calculation of profits and gains of business or profession is dealt under section 28 to 44 of income tax act 1961. This head of the act is a major source of revenue to the government.

Business [section 2(13)]

Definition of “Business” includes any trade, commerce or manufacture or any venture or concern in the nature of trade, commerce or manufacture.

Profession [section 2(36)]

Profession involves an exercise of intellect and skill based on learning and experience. Vocation refers to any work performed on the strength of one’s natural ability for the work. Regularity and profit motive are not necessary for an activity to be called a vocation.
